

## Testing Kit Discharging Machine

This equipment can realize the robot automatic unloading tools, guide the accurate unloading of the manipulator by the visual positioning system

Model	RO-ZGX02
Working power	380VCA±5%/50HZ±1% 3phase 5 line
Power	25KW
Working air pressure	0.5-0.7Mpa
Success rate of unplugging	More than99%
Success rate of tooling picking	More than99%
Success rate of returning to the line	More than99%
Tact	20s
Applicable module type	minimum2050*950mm , maximum 2500*1400mm
Camera Shutter mode	Electronic shutter
Camera type	Area array / Line scan, HD camera
Camera accuracy	0.2mm
